

Designed for use on aerial lift bucket trucks made by:

MBI Monzon Brothers, Inc

PLASTIC TECHNIQUES, INC.

MBI Crane & Hoist
Material Handling Products and Services

TIME / VERSALIFT

A is measured from the bottom of the rim to the base of the insert.
B & C measurements are taken one inch down from beneath the lip, on the outside of the insert.

D & E measurements are taken three inches up from the bottom, on the outside of the insert. This eliminates distortion due to the radius of the corners.

NOTE: All dimensions shown in chart below refer to the OUTSIDE of the insert, or INSIDE of the bucket. All measurements are rounded to the nearest half-inch.

ELECTRICAL INSULATING BUCKET INSERT SPECIFICATIONS
